

ADITYA JETHANI

9328223890 | Surat, India - 395009

adityajethani11@gmail.com | [LinkedIn](#) | [Portfolio](#) | [Github](#)

EDUCATION

Pandit Deendayal Energy University

B.Tech in Computer Engineering, **CGPA: 9.44/10**

Gandhinagar, India

August 2021 - May 2025

Relevant Coursework: DSA, DAA, OOP, OS, DBMS, Distributed Systems, AI, ML, Big Data, Web Development

EXPERIENCE

Software Engineer

CybraneX Technologies

June 2025 - Present

Delhi, India

- Engineered GPU-batched inference pipeline for fine-tuned LLMs, replacing serialized generation to cut latency from **110s to 12.2s** for concurrent queries and parallel speedup handling high-volume workloads
- Developed REST API and UI for data processing pipeline, enabling real-time analysis to measure tongue crack density for clinical diagnostics. Integrated segmentation and Fourier transforms to process data

Software Engineering Intern

Yanolja Co. Ltd.

January 2025 - June 2025

Surat, India

- Improved multilingual **image-to-image translation** accuracy by **50% over state-of-the-art baselines**, enabling e-commerce product images to auto-convert languages to English while preserving design fidelity
- Automated code review by analyzing commit histories & Pull Request differences and built pattern-recognition pipeline that **reduced vulnerability incidents by 27%** while enforcing coding standards

Machine Learning Intern

CybraneX Technologies

May 2024 - October 2024

Delhi, India

- Designed a AI telemarketing platform handling calls **with less than 1 second latency** and integrated lead scoring (XGBoost and LLM re-ranker) achieving **89% accuracy** in identifying high-value leads
- Built a live analytics dashboard combining purchase history with geolocation and optimized client inventory flow and **improved turnover by 22%** through actionable insights

PROJECTS

Scroll-Tracker | *Node.js, Express.js, MongoDB, Groq Cloud, LangChain, Chrome Extension, REST APIs*

- Developed a browser extension for scroll tracking with AI-generated analogies, supporting multi-tab sessions and cloud synchronization. Integrated scalable analytics dashboard achieving under **500ms API latency**

TalentScout AI | *Python, NLP, Transformers, LangChain, LangGraph, Groq Cloud*

- Engineered a candidate validation system through ETL pipeline with real-time processing. Reduced hiring **evaluation time by 60%** with automated question generation with maintainable code architecture

Turing Search | *FastAPI, MySQL, Django, Pydantic, Alembic, Uvicorn*

- Built and deployed high-performance RESTful API infrastructure **achieving 150ms average lookup time** for contact management. Implemented spam detection system with 90% test accuracy.

TECHNICAL SKILLS

- Programming Languages:** Python, C++, Go, SQL
- Frameworks & Libraries:** React, Node.js, HTML, CSS, Flask, Django, PyTorch, LangChain, LangGraph
- Cloud & DevOps:** AWS (S3, Lambda), Google Cloud Platform (BigQuery, VertexAI), Docker, Git
- Tools:** MySQL, MongoDB, Postman, Selenium, OpenCV, Linux

ACHIEVEMENTS

- Leetcode:** Tackled 190+ problems (Max Rating 2089, Top 1.6%)
- Open Source:** Merged 15+ production quality Pull Requests in Hacktoberfest 2024, GSSOC 2024
- Hackathons:** Top 105 in Google Solution Challenge 2025 among 4000 teams, Finalist in ByteVerse 2025 (NIT Patna), Smart India Hackathon 2023
